Benefits of Channel Drains System

1. Can be fixed on Large Tiles / Slabs in bathrooms & Drain areas.
2. Improving water drainage to prevent water logging & keep the area dry.
3. Increasing the safety, reducing the risk of slips & falls.
4. Enhancing the value of the property & aesthetics.
5. Modern Channel Drains features sleek & minimalist designs that blend seamlessly with the surrounding landscape. Their low-profile appearance minimizes visual clutter & creates a clean & unobtrusive look, enhancing the overall aesthetic appeal of your property.
6. Channel drains come with a variety of grate options, including decorative grates, patterned grates, and grates made from different materials such as stainless steel, Glass, etc. These customizable options allow you to choose a grate design that complements the architectural style of your property, adding visual interest and personality to the space.
7. Channel drains contribute to a safer and more accessible environment for residents, visitors, and guests. Their presence ensures a dry and stable surface for walking, driving, and recreational activities, enhancing usability & enjoyment of outdoor spaces.
8. Drain systems offer a combination of functional performance and aesthetic appeal, allowing you to effectively manage surface water drainage while enhancing the visual appeal and value of your property.
9. Channel drains are designed to quickly and effectively drain water away from the surface.
10. This broader coverage ensures that water is collected and removed evenly.

Life Time Quality Assurance

Durability 25 years

Special Drainage Systems

plato we are a company with 40 years of Experience in the Water Technology. We understand that the **Quality, Design, Versatility & Durability** of the Stainless Steel Drainage Products, is the most important part of the selection process. The decisions are influenced by these factors. There are no industry standards as yet. We are setting the new standards.

plato Introduces the **Premium Quality** floor drainage systems. **Hygienic & Efficient Innovative & Outstanding** designs & Styles to enhance the aesthetics of you Bathrooms, Outdoors & Kitchens etc.

It is the result of European & Indian Designers Innovation.

Shower Channels in 304 High Grade Stainless Steel with 1.2mm thick Base & 1.5mm thick grates for smooth finish & extra long life.

First in India to provide specially designed **BRASS traps** that are very long lasting & **Deodorant (Odour free)** to keep your bathrooms pleasant.

Base Inlet / **Outlet 42-50MM** diameter (as per Model Design) for 50 lt/minute water Discharge.

Gasket Lock Technology for Zero Leakage.

Specially designed **BRASS** traps for long life & zero wear & tear.

Hair Catcher for easy cleaning & to stop Hair entering the trap.

ODOUR FREE & insect free mechanism in traps to keep your Bathroom pleasant.

High Grade SS 304 Stainless Steel with Nickle content 8% plus .

Most innovative, Elegant, Outstanding & functional designs to suit your taste & aesthetics.

FIRST TIME IN INDIA

Exclusive Traps for Different Sizes & Purposes :

BRITISH TECHNOLOGY

DRAINER COUPLER FIRST TIME IN INDIA

MAGLEV TECHNOLOGY

Magnetic Levitation Technology has created a unique drain core.

HIGH WATER FLOW RATE

Due to the large grille & Whirlpool Technology the water flow speed is quite high. It can drain without ponding over when multiple showers are working.

TORNADO SELF-CLEANING TECHNOLOGY

It has created an original Rotary Bonnet Drainage Technology which throws away sand, soap other small dirt.

NO OVERFLOW

Rainstorms like sanitary problems may result in water overflow. It has been created to block water backflow.

MAGNET ISOLATION

Egg-Shaped drain core contains and isolates the working magnets from the surrounding environment. The Egg-Shape design ensures that no dirt will be accumulate on the core.

NEOPRIU INVENTION IN ODOURLESS TECHNOLOGY

This state-of-the-Art Development in stopping cockroaches, insects & Foul Odour marks this trap a real wonder, the membrane opens only with the flow of water & closes itself after the water has been drained out.
